

One more scene out of the oven and ready to be served!

Another update is almost here! We are aiming for the end of the month and hope everything continues as planned.

This update will include more locations, minigames, new characters, and some new naughty scenes. We are also planning on releasing another update before the year ends, so there is still lots of work to do... don't forget to view our sometimes weekly, sometimes daily streams so you can see the progress made. Stay tuned!

And, as usual, thanks a lot for the support!
